**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 43-57 are now the only claims in this file.

#### ***Claim Rejections - 35 USC § 112***

Claims 43-57 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Examiner can not find support for ONLY zearanol , application seems to provide this as RALGRO, which, as a part of the composition is then added to the polymer bound zearanol of the controlled release portion. Again, this portion also is seen to contain more than zearanol & polymer agent. Please point to support for a composition of only zearanol, with only a release agent.

Applicant's arguments filed 7/14/05 have been fully considered but they are not persuasive. Applicant's arguments are to the effect no one shows motivation to combine only Zearanol, providing immediate action, with a controlled release, long term dosage form in one composition for implantation . However, examiner finds the prior art shows

Art Unit: 1615

one in the fattening arts would find it obvious to provide an immediate acting growth stimulant, in order to minimize feeding amount, time before shipping, feed costs for instance, while also providing a long term continual dosing form in order to continue with growth & feed efficiency advantages & improvements, & to do so at one time, to eliminate having to do 2 implant procedures, 2 times of corralling & handling the animals. Although the references of record do not show zearanol alone with a polymer release zearanol form for controlled release, in one composition, the instant claim is not seen as supported for this composition, and rejections of record will be re-introduced & the action made final upon removal of the new matter.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to NEIL LEVY whose telephone number is 571-272-0619. The examiner can normally be reached on Tuesday-Friday, 7 AM to 5:30 PM.
